

Vacation Vision: A holiday recommendation engine

Peter Moore

2018-10-24

University of Dundee

Course: AC53011

Studentid: 170000983

Supervisor: Dr Karen Petrie

A thesis submitted in fulfillment of the requirements for the degree of MSc Data Science (School of Computing)

Vacation Vision: A recommendation engine for the travel industry using twitter-based sentiment analysis; image detection and collaborative filtering

Acknowledgements

First of all, I would like to express my sincere thanks to my supervisor, Dr Karen Petrie for their guidance throughout the project.

I would also like to thank Professor Mark Whitehorn, Professor Annalu Waller and Mr Andy Cobley for their extra-curricular support.

Last but not least, I would like to thank my partner and child for their support.

Appendix X

Matrix of skills used and whether or not I had prior¹ experience.

Table 1: Skills Matrix

Skill	No prior experience	Prior experience
SQL	NA	Y
SQL on Linux	Y	NA
Docker	Y	NA
Python	Y	NA
R	Y	NA
Power BI	NA	Y
ggplot	Y	NA
nltk	Y	NA

¹“Prior” meaning before 1st January 2017
